

All sales agent.

Due to the adjustment of Air China's capacity plan, starting from June 3, 2023, Air China's London route will undergo flight structure adjustment, involving flights CA849/CA850 and CA851/CA852. The adjusted flights will enter the system for normal sales on May 9 (see the table below for details of the adjusted flight numbers, schedules and times).

After the flight adjustment, Air China will carry out passenger notification and seat reservation protection. All channels are requested to assist in notifying passengers and to do a good job of changing their tickets to RR (due to changes in flight numbers, tickets need to be changed and confirmed before they can be used). If the passenger does not accept the reservation protection scheme, he/she can make involuntary changes to the ticket (change the flight, change the route and add the corresponding domestic section).

The relevant flight numbers and flight time adjustments are detailed in the following table:
